Declaration of consent for the processing of image recordings

We, the German Academic Exchange Service e.V. ., Kennedyallee 50, 53175 Bonn, hereinafter referred to as "DAAD", intend to take photos and videos, have them taken and publish them. The visual and audio material will be produced as part of the annual event for the Konrad Zuse Schools of Excellence in Artificial Intelligence programme on 29 October 2025.

I consent to the DAAD using photographic material in which I am identifiable for the purpose of

- the coverage of our event,
- the public relations work of the DAAD
- passing on to the BMBF/Cooperation partners of the DAAD for their public relations work
- the Zuse Schools

processed and published together with the mention of my first and last name and function in the following media:

- DAAD website
- DAAD presences in social networks, currently: Twitter/X, LinkedIn Facebook, Instagram and on video services (e.g. YouTube), as well as presences of DAAD funders such as the BMBF and the Zuse Schools themselves.
- DAAD Intranet
- DAAD print media (e.g. DAAD Annual Report)
- Website of funders and project promoters

I also consent to the DAAD network being granted access to my data from a third country (outside the European Economic Area) for the above-mentioned purposes, although no level of data protection comparable to EU law is guaranteed in this respect. Therefore, compliance with the data protection principles of EU law is not guaranteed. In this respect, there may be a violation of my fundamental rights and freedoms and resulting damages. This may make it more difficult for me to assert my rights under the General Data Protection Regulation (e.g. information, correction, deletion, compensation) and, if necessary, to enforce them with the help of authorities or in court.

In the case of publications on the internet**:** When published on the internet, personal data (including photos) can be accessed and stored worldwide. The data can thus also be found via so-called "search engines". It cannot be ruled out that other persons or companies link the data with other personal data available on the internet and thus create a personality profile, change the data or use it for other purposes.

Insofar as the photographic material contains special categories of personal data[1] about me pursuant to Art. 9 DSGVO (e.g. information about my ethnic origin), I also consent to the above-mentioned use.

My consent to the specific use described is voluntary and can therefore be revoked by me at any time - with effect for the future, freely and without giving reasons - vis-à-vis the DAAD via datenschutz@daad.de. This does not affect the lawfulness of the processing of photos in which I am recognisable.

[1] Special categories of personal data are data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, trade union membership, genetic data, biometric data uniquely identifying a natural person, data concerning health or data concerning a natural person's sex life or sexual orientation.
