

LADOK

Ladok the Swedish SIS

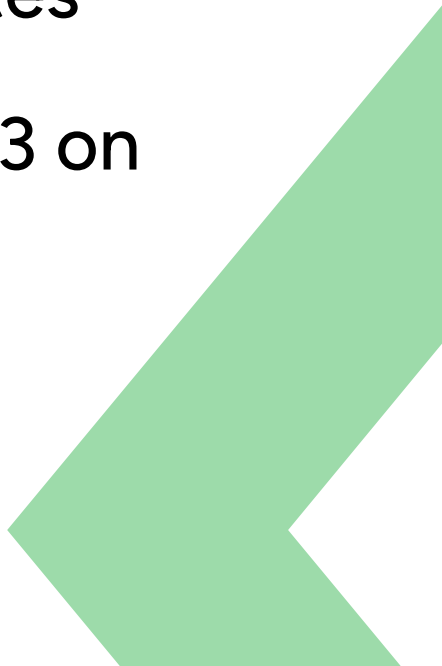

Mauritz Danielsson
CEO, Ladok Consortium

2024-09-12

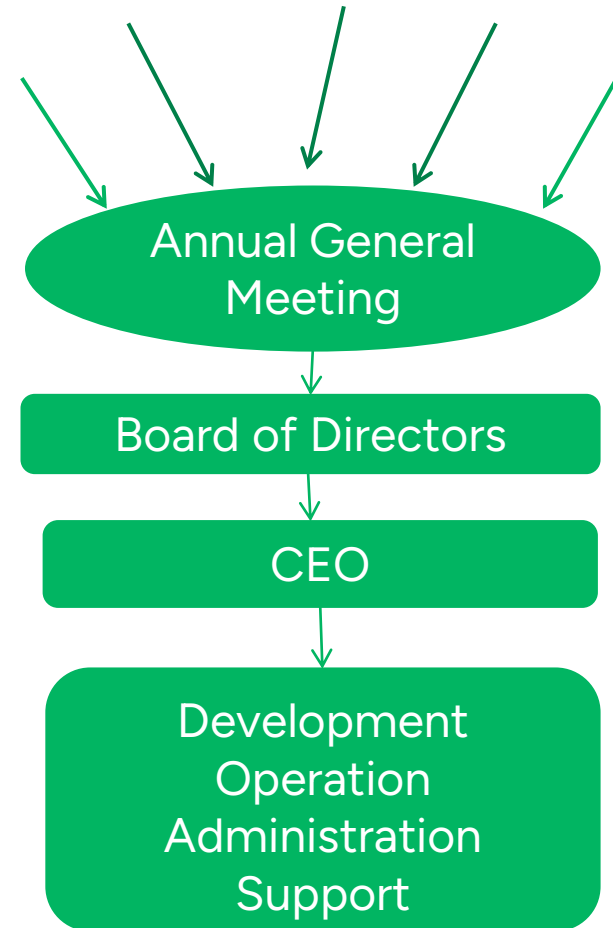

What is Ladok?

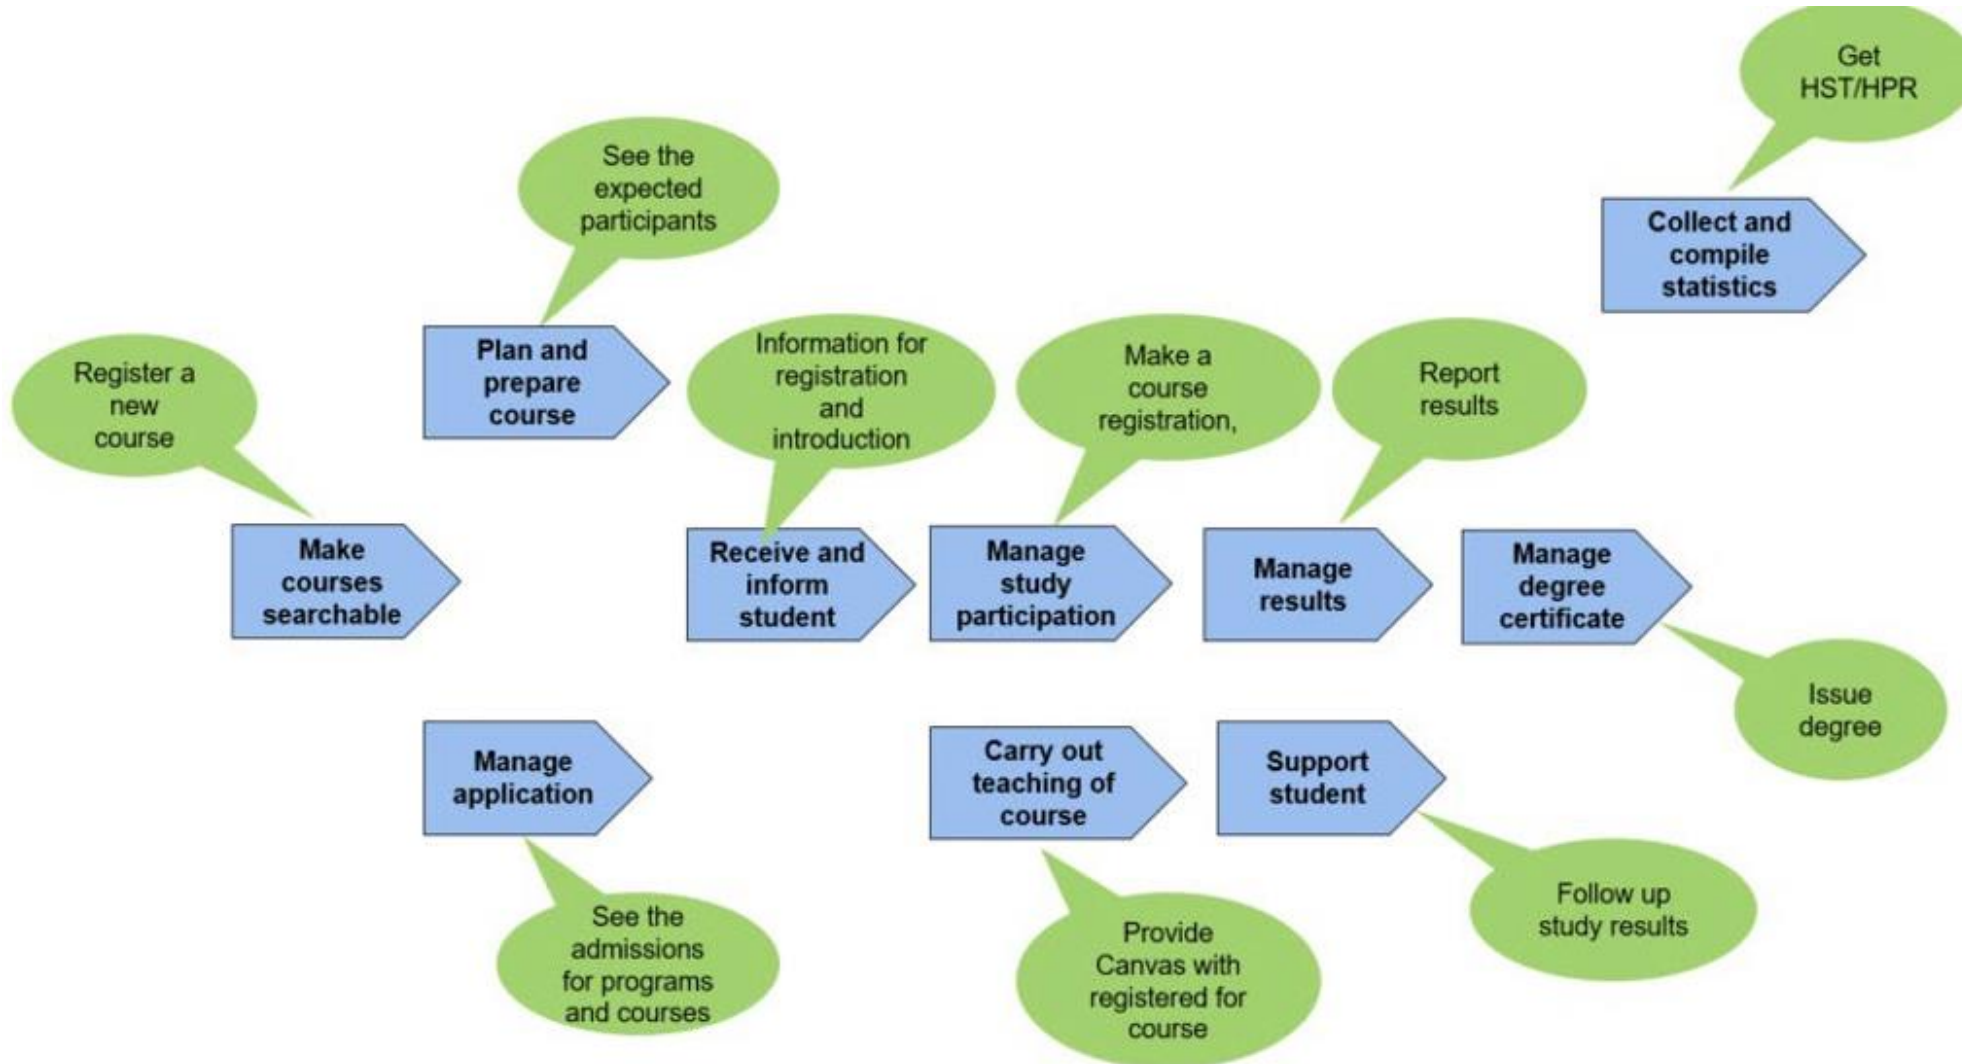

- A Student Information and Management System
 - The production system for Higher Education in Sweden
 - An archive of participation, results and degree certificates
 - Owned and used by 40 Higher Education Institutions + 3 on their way in
 - First version of system in the 80's
- 
- A large green arrow graphic pointing to the right, located in the bottom right corner of the slide.

40 Higher Education Institutions

Process Map Royal Institute of Technology

27 000 faculty and staff

350 000 active students

Information about 3,2 million students

LADOK

Education and educational planning

Study participation

Follow-up, reports

Management of users and authorizations

Study results

Degree certificates

Catalogue information

Since 2017 ONE installation

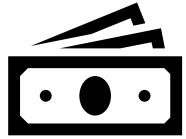

A national database for students

Common data (codes, texts, templates)

Separate education data for each HEI

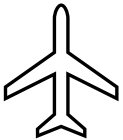

Drivers and advantages

Cost effective ~ 15-20 € per active student and year

Less vulnerable

Mobility - one place to go for Swedish students

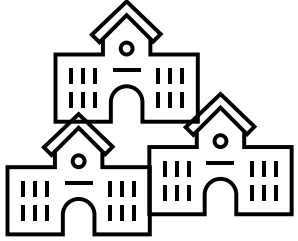

Leverage – security, integration standards, improved processes

Innovation and learning that spreads in the sector

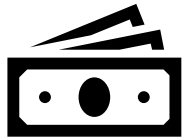

Challenges

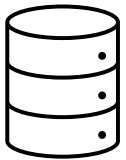

Developing a solution that works for all institutions, but is not too complex

Priority of new development

How to divide the costs

Sharing data

Success factors

Close cooperation with the higher education institutions on all levels

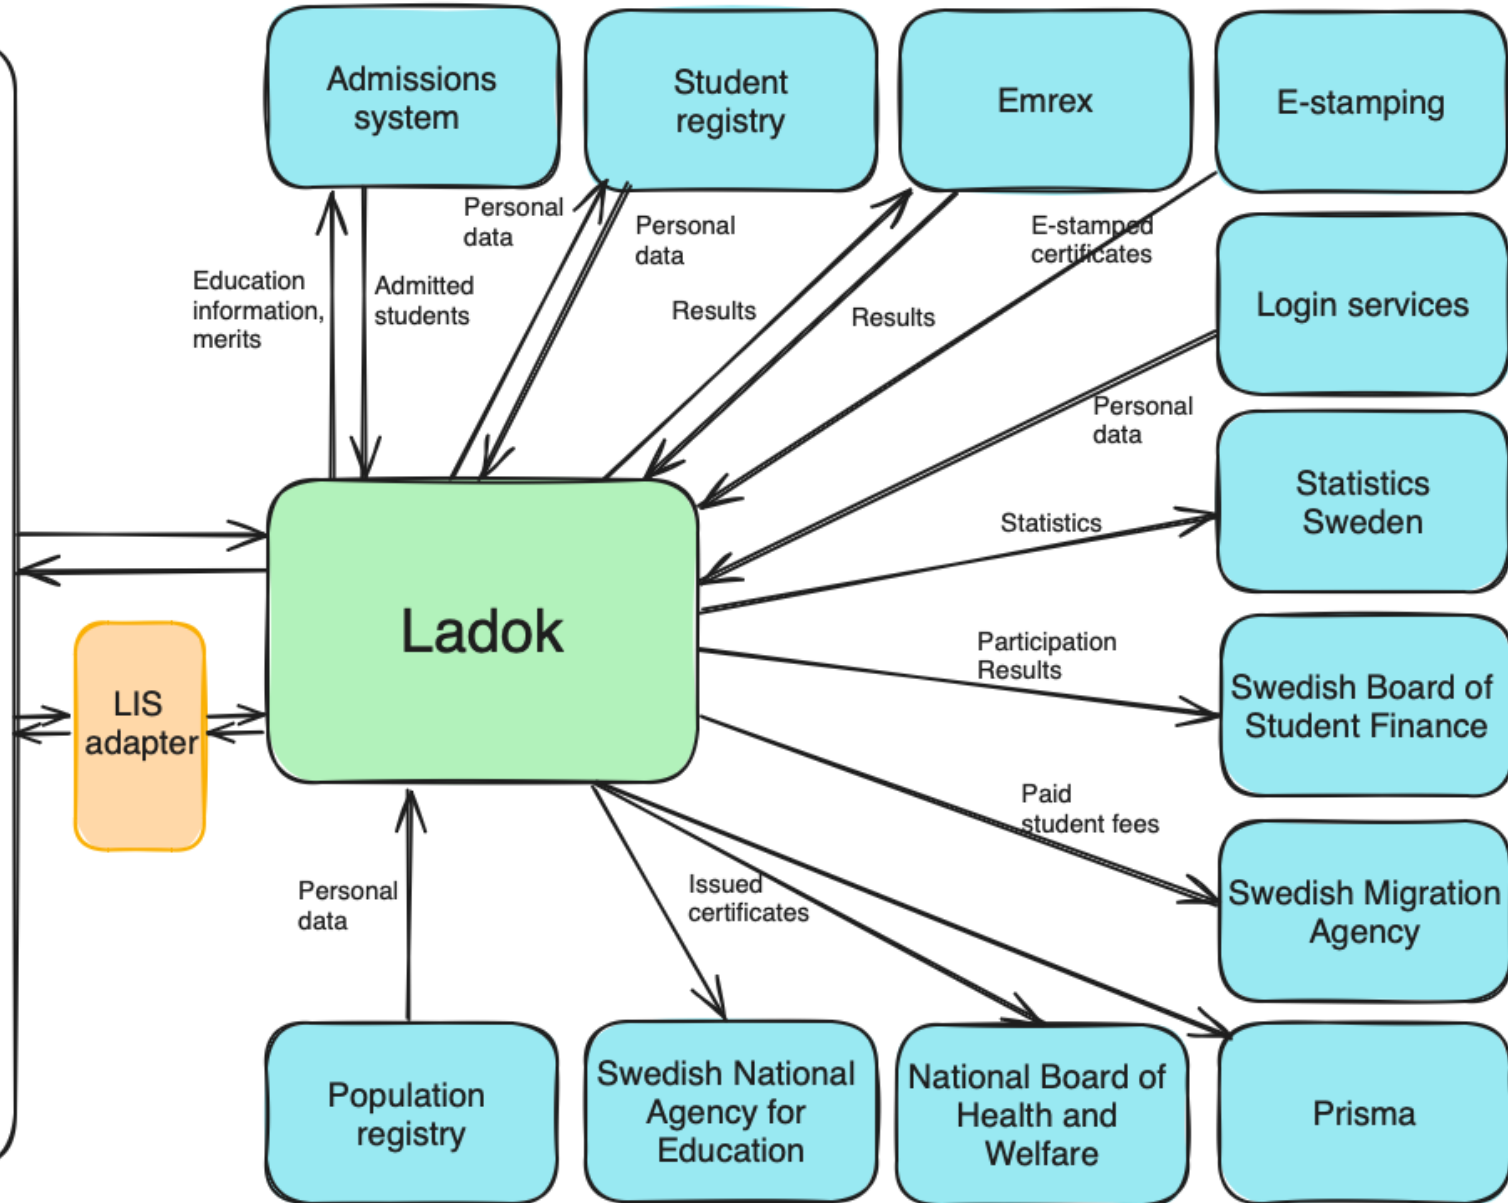

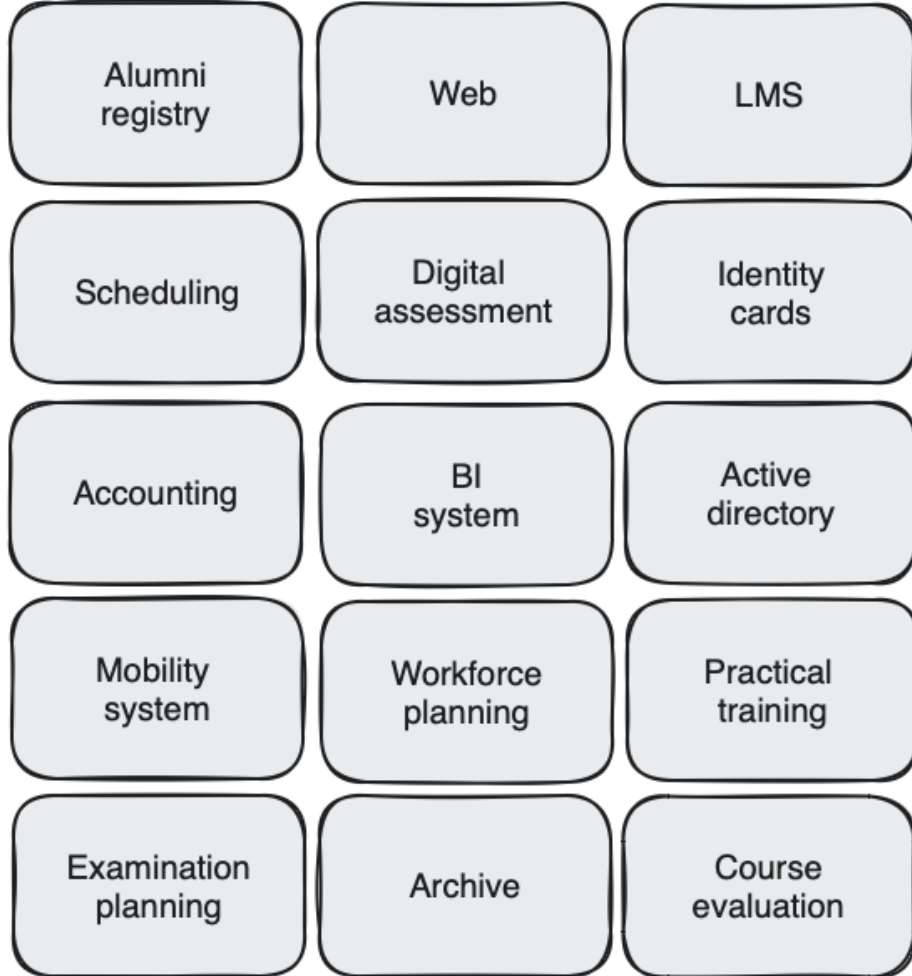

Agile development, short development cycles and feedback loops

Sharing the cost for all new development

Unique needs not met with the national solution

40 Higher Education Institution systems

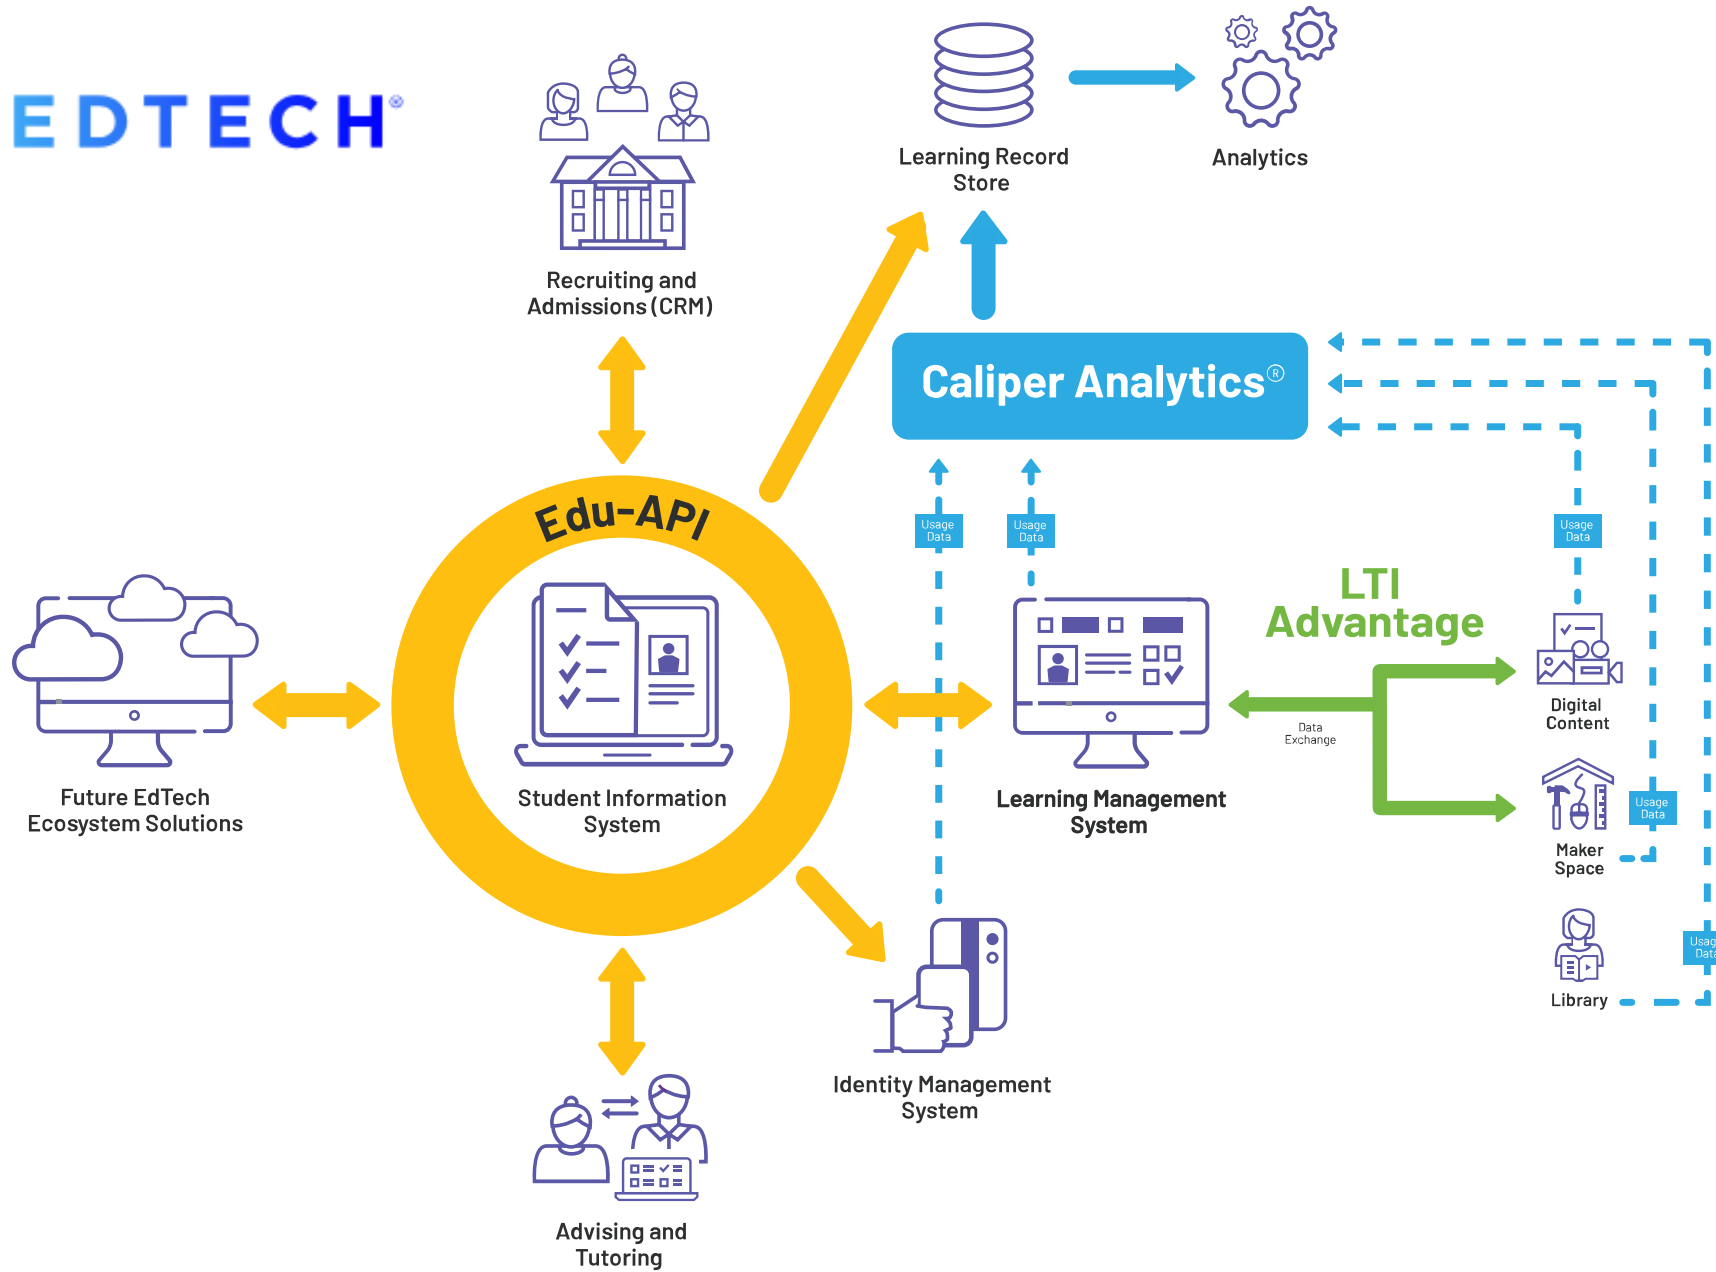

International standards

Ladok contributes to the development of the international standard Edu API (1EdTech)

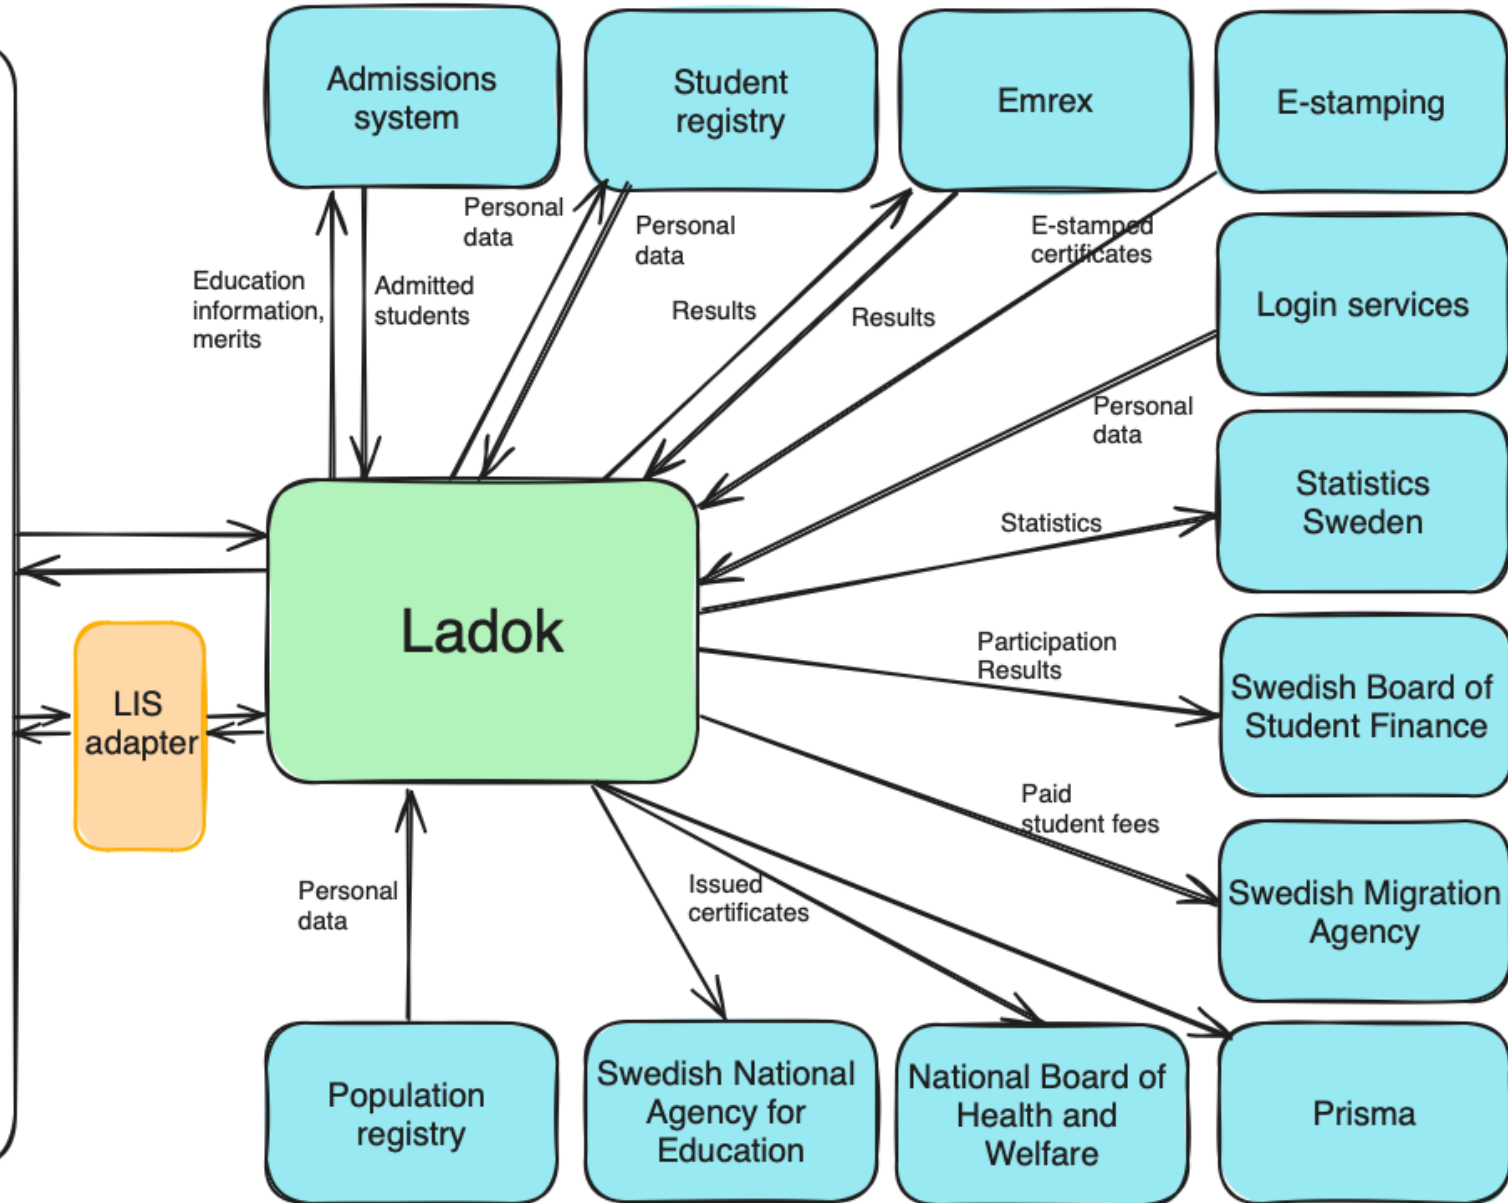

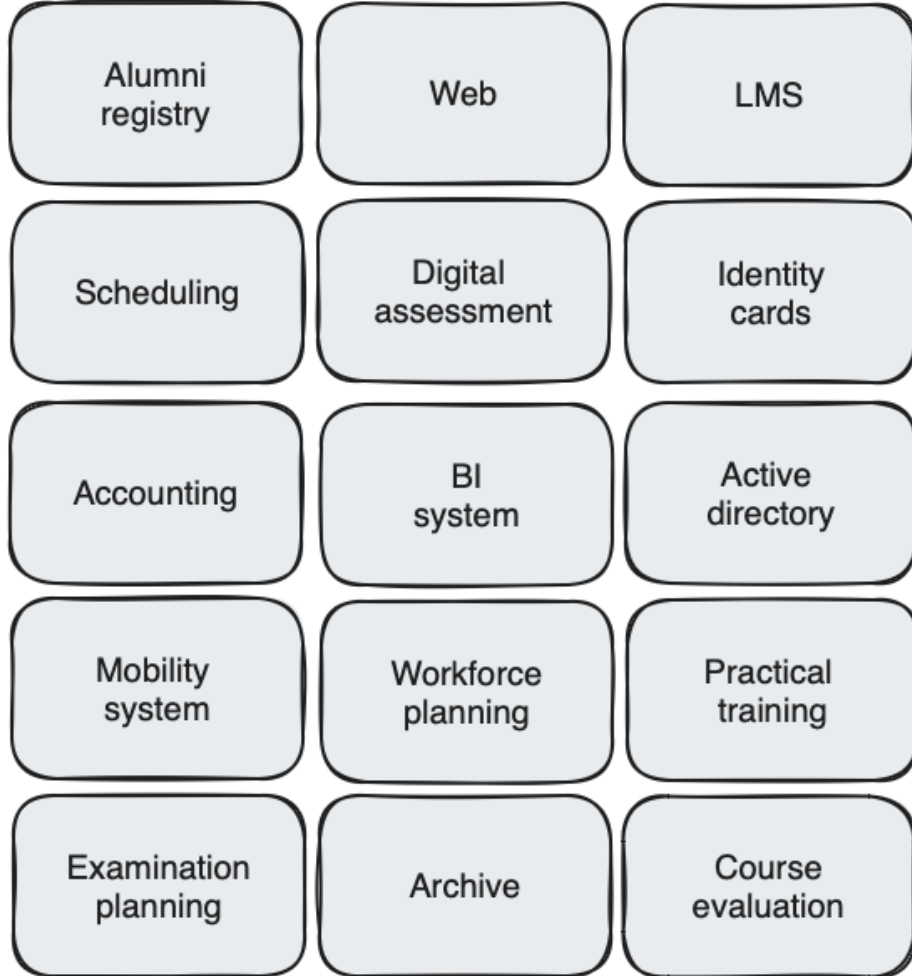

Emrex is integrated in Ladok

Ladok promotes the use of international standards nationally

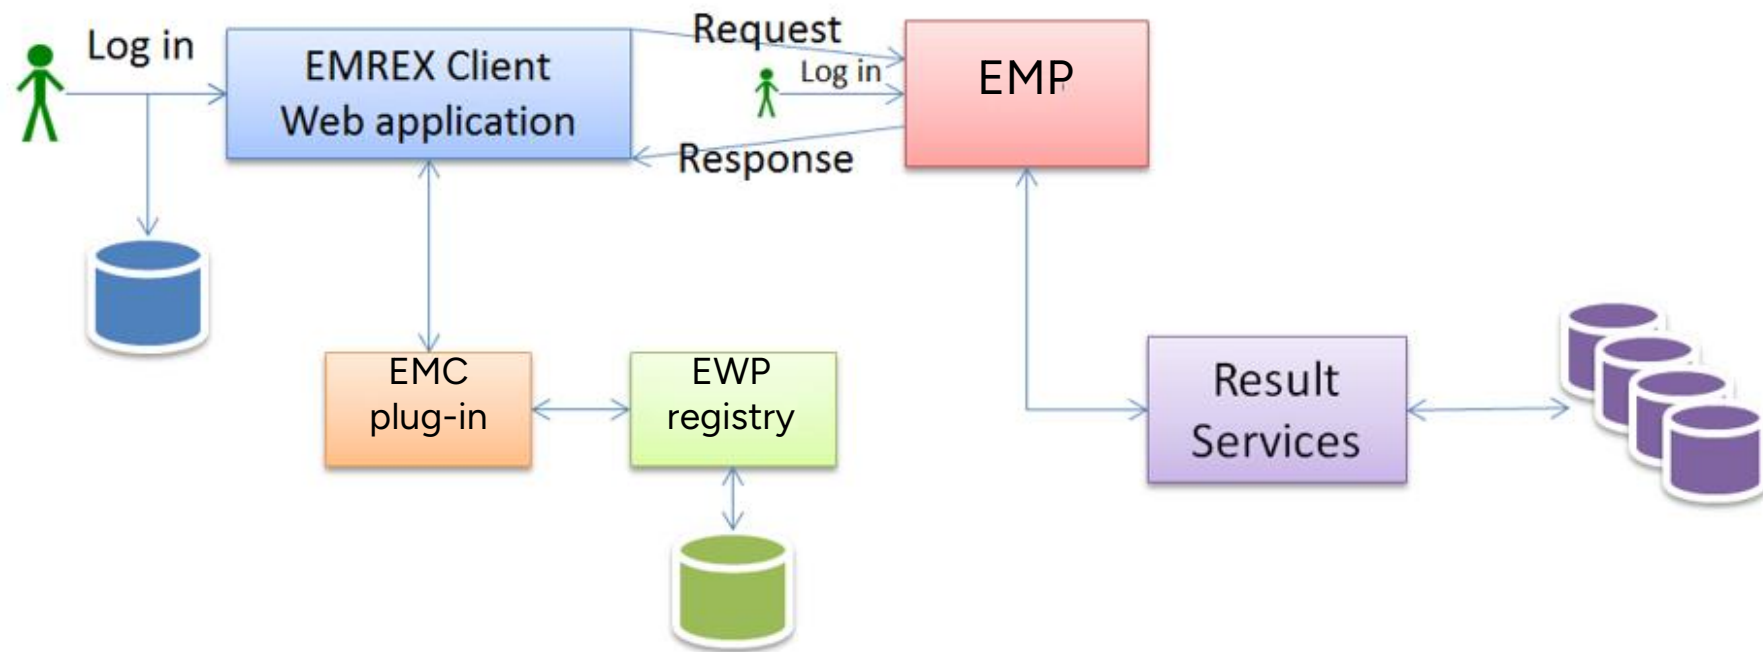

40 Higher Education Institution systems

How EMREX works
