Global Reach

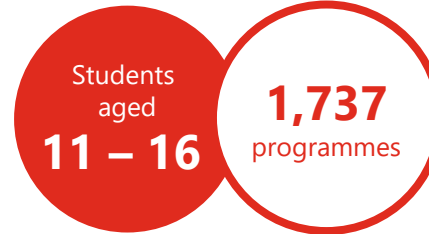

Figures as of February 2024

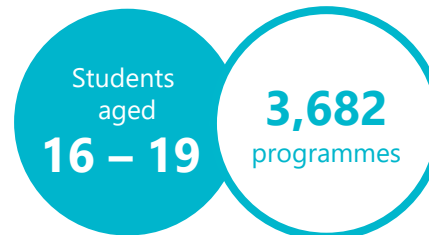

Four harmonized programmes, from age 3 to 19

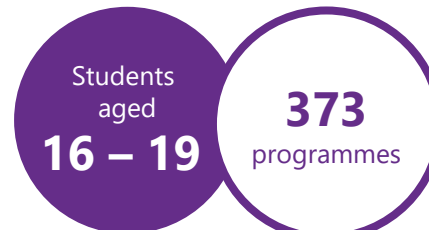

The PYP marks the start of a lifelong journey. It develops caring and culturally aware children aged 3 – 12 to become active participants in their own learning.

Building a solid academic foundation, the MYP develops students' confidence in managing their own learning and making connections between their learning in the classroom and the real world.

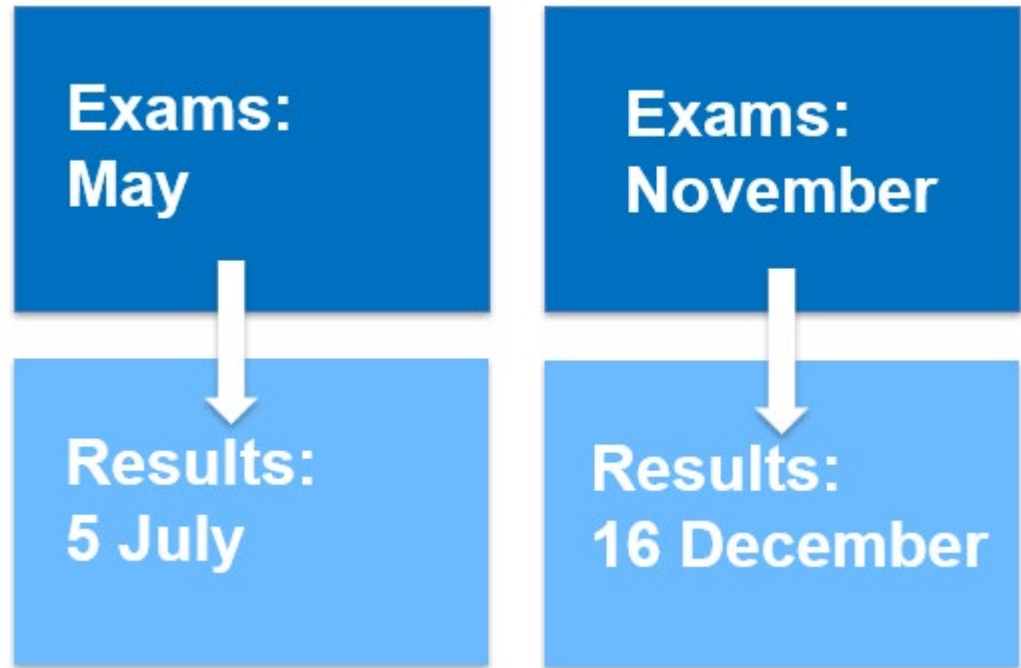

A future-ready programme that builds students' inquiring mindset, fosters their desire to learn, and prepares them to excel at their careers and lead meaningful lives.

A unique programme for students in their final school years. It equips them with future-ready skills and prepares them to follow their career pathways – combining academic subjects with their own professional interests.

Receiving transcripts

- The IB provides transcripts to universities promptly once results are known.
- There are two methods to receive transcript: paper **or** electronic
- Electronic: allows universities to download **transcripts** on results day
- The IB sends the official **certificates** to the student's school in September (for the May session) and in March (for the November session).

How to become electronic?

Regulatory

- **Ofqual, England, UK qualifications regulator**
 - Applies general conditions of recognition, a set of regulations the IB has to meet.
 - Undertakes audits to check we are meeting regulations
- **VRQA, Victoria, Australia qualifications regulator**
 - Applies standards, a set of regulations the IB has to meet.
 - Accredits the DP every five years using a panel to review the quality of the programme

Semi-regulatory

- **Kultusministerkonferenz (KMK)**
- **Some state and provincial governments in USA and Canada**

Partnerships

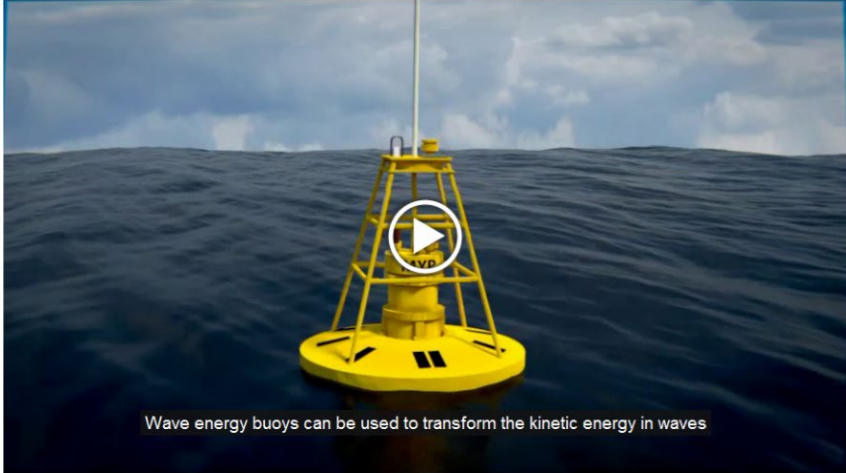

- An example: projects with the **Korean, Japanese and German governments** that allow elements of the Diploma Programme, to be delivered in countries' native languages

Digital assessments

Watch the video showing a prototype device for collecting wave energy.

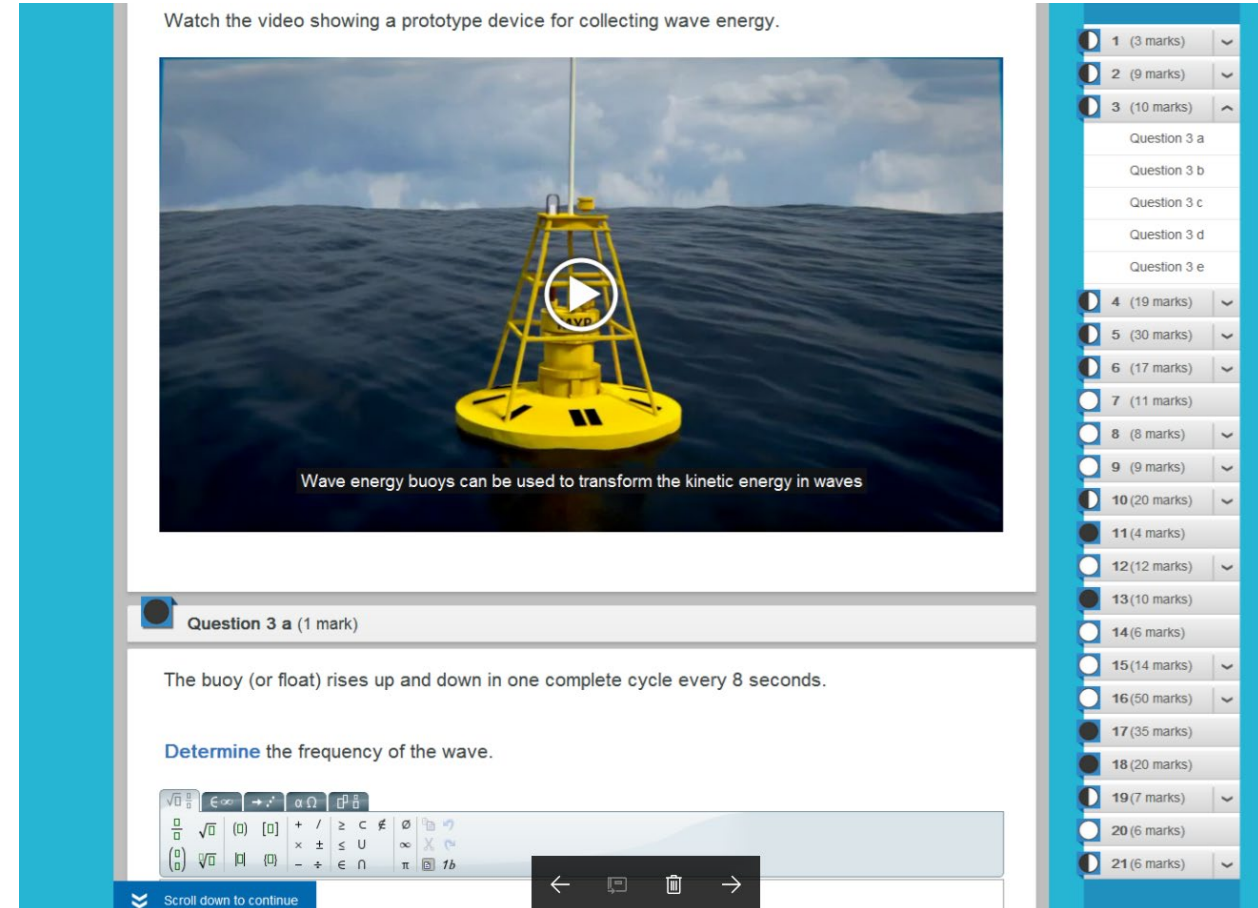

Wave energy buoys can be used to transform the kinetic energy in waves

Question 3 a (1 mark)

The buoy (or float) rises up and down in one complete cycle every 8 seconds.

Determine the frequency of the wave.

The interface includes a video player with a play button, a question section with a text prompt and a math input field, and a sidebar on the right listing 21 questions with their respective marks. At the bottom, there is a 'Scroll down to continue' button and navigation arrows.

MYP eAssessment

- To earn the **MYP certificate**, students must take course-specific, externally moderated assessments throughout their time in the programme, in addition to their personal or community project and fulfilling their "service as action requirement".

| <i>internally marked, externally moderated (dynamic sampling)</i> | | | |
| Personal project | <i>internally marked, externally moderated (dynamic sampling)</i> | | |

Optional eAssessment

- eAssessment:** one from each subject group + interdisciplinary exam
- E-portfolio:** demonstrate their skills and knowledge in an e-portfolio submission of their coursework in the following areas: **arts** (visual or performing), **physical and health education**, **design**, or **language acquisition** (which includes an on-screen exam).
- Students must achieve at least 28 out of 56 points (with a grade of 3 or higher in each component) to be eligible for the **MYP certificate**.
- Without an eAssessment, all grades are provided internally with no external moderation**

DP/CP Online Education - Existing model

- Pamoja is IB's Approved Online Course provider for more than 10 years
- The online courses cover the same course content and prepare students for the same assessments as traditional face-to-face IB DP courses.
- All online courses:
 - are quality assured by the IB,
 - aligned to IB's subject guides,
 - adhere to all requirements for internal assessment and other IB requirements,
 - developed in consultation with IB subject matter experts,
 - are designed as student-centered, inquiry-based learning environments
- Online courses can only be offered to students who are associated with authorized brick-and-mortar IB World Schools
- Acceptance of the online courses is due to local regulations (for example not permitted in Germany)

DP Online Pilot versus DP Online Courses

1. DP Online Pilot:

- Run a series of pilots where the Diploma Programme will be implemented in an online school environment.

2. DP Online courses through Pamoja:

- Existing model to offer DP Online course for students at IB authorized brick-and-mortar schools for brick-and-mortar IB schools that want to offer more courses or schools having challenges with the teacher capacity.
