

**Collaboration for
Active Mobility in
Africa CAMA**
"kama twende"
Swahili "let's go"

Our Network

Hochschule Karlsruhe, Germany
University of Kassel, Germany

Makerere University, Uganda
University of Nairobi, Kenya
Mekelle University, Ethiopia

Active Mobility

Challenges

General:

- Air pollution
- Congested roads/blocked roads

Active Mobility related:

- Gender gap
- Missing Active Mobility Infrastructure for children
- Availability of bicycles
- ...

Project Objectives

Foster the exchange of knowledge in the promotion of active mobility between Sub-Sahara Africa and Germany.

Good practices

- Living Labs
- Team Work

Activities

- Implementation of a digital crowd mapping tool
- Broad-based survey to map mobility behavior in the cities of Nairobi, Kampala and Mekelle
- Implementation of Living Labs
- Build up of Learning Alliances (Virtual Library, Exchange between Master students and PhD students in different countries)
- Summer Schools in Germany and Ghana
