As part of the „In-Country/In-Region Scholarship Programme“, DAAD offers scholarships for Master studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

(**In-Region scholarships** are aimed at students who want to participate in a study programme in a country of their home region (here: Sub-Saharan

Africa /outside their home country/in the country for which they do not have a residence permit).

It has been agreed upon that DAAD cooperates with Pwani University by offering **up to two (2) In-Country and five (5) In-Region scholarships for Master studies** at Pwani University for the intake 2024.

DURATION AND COMMENCEMENT FOR A MASTER'S DEGREE

5

The duration

- The scholarships are awarded for the duration of the standard period of study for the chosen programme (up to a maximum of 24 months). Please state the entire period for which you wish to apply for a scholarship in your application. For example, if you are planning a 2-year degree programme, you must directly indicate two years as the desired scholarship duration in your application. After the first year of study, your academic achievements will be assessed in a further funding procedure. If this shows that you will successfully complete your programme within a reasonable period of time, the scholarship will continue as planned.

The scholarship usually begins on **the 1st of September** of the following year.

Please note that the maximum duration of the scholarship is based on the time that is left until the scholarship holder has reached the regular period of studies in that programme; i.e., if you apply for a DAAD scholarship starting in your second year of studies of a three-year programme, the maximum duration of the scholarship will be two years.

The standard period of study and the start date are based on the Affiliate Agreement between the host university and the DAAD.

Please note: if you arrive later, the duration of your scholarship will be respectively shortened.

APPLICATION AND SELECTION PROCEDURE FOR A MASTER'S DEGREE

6

As a first step, all applicants must submit a complete application for the programme via the DAAD Portal.

Please be aware of the DAAD's application deadline as well as Pwani University's deadline.

The application process for DAAD scholarships contains the following steps:

1. Register on the portal:
https://portal.daad.de/sap/bc/bsp/sap/z_set_cookie/setcookie.htm?f_und_ar=stv&id=57707395
2. Log in to the portal and click on the "Application" tab
3. Carefully complete the online form and upload the required documents (listed below under 7)
4. Submit your application via the portal by **23rd November 2023**

Remember to check that your application is complete and meets DAAD requirements before submitting! Otherwise, your application cannot be considered.

DAAD will conduct a formal review of the applications received via the DAAD portal only, according to the DAAD criteria.

In addition to this first step, applicants must apply for admission at the Pwani University using the contact details and procedure prescribed by the institution. **The institution sets its own deadline for the admission process.** Please inform yourself in plenty of time about the application process at the host institution.

Please note in some countries in Sub-Saharan Africa, a document from the Qualifications Authority must be submitted for admission to the universities (e.g., from SAQA in South Africa). The application for these documents can take a while and it is the applicant's responsibility to obtain the documents from the respective authorities in time.

In a final selection organized by the DAAD, applications that have met both the admission requirements at the host university (and the university's rank in the pre-selection) and the DAAD's formal criteria are evaluated by an independent selection committee (international university teachers and experts from German and foreign universities as well as alumni). The independent selection committee evaluates the applications based on the submitted documents, taking into consideration the pre-selection ranking of the institution. Areas evaluated include academic performance and quality, extracurricular activities, motivation, and relevance of the research topic (if applicable).

The DAAD reserves the right of final selection.
