PROGRAMME OBJECTIVES

1

The programme aims at fostering strong, internationally oriented higher education systems in Sub-Saharan Africa with the capacity to contribute to sustainable development. For this purpose, scholarships for development-related Master or doctoral studies are awarded to individuals who plan to pursue a career in teaching and/or research at a higher education institution in Sub-Saharan Africa.

By training future academic and professional leaders, the programme contributes to the following **long-term impacts**:

- Qualified professionals' involvement in the solution of development-related problems in Sub-Saharan Africa
- Graduates strengthening education and research in Sub-Saharan Africa
- Structural strengthening and regional networking of partner institutions and partner universities

To achieve these long-term impacts, the following outcomes have been formulated as programme objectives:

Programme objective 1: Graduates have qualified to take over responsible positions in their or for their region of origin

Programme objective 2: The participation of women and underprivileged groups is reinforced

Programme objective 3: Organizational, financial and personal capacities of partner institutions are strengthened

As part of the In-Country/In-Region Scholarship Programme, DAAD offers scholarships for PhD and Master studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

The target group for scholarships are graduates and postgraduates from Sub-Saharan Africa with a first academic degree if applying for a Master programme, or with a Master degree if applying for a doctoral programme who want to pursue Master's or PhD courses, either

- in their home country

(In-Country scholarships are aimed at students who study in their home country or in the country for which they have a residence permit.)

- or -

- in another Sub-Saharan Africa country

(In-Region scholarships are aimed at students who want to participate in a study programme in a country of their home region (here: Sub-Saharan Africa /outside their home country/in the country for which they do not have a residence permit).

It has been agreed upon that DAAD cooperates with Partnership for African Social and Governance Research (PASGR) by offering **up to 2 In-Country and 5 In-Region scholarships for Master studies at Egerton University, University of Lagos, Maseno University, Mzumbe University and University of Ibadan as collaborating universities with the Partnership for African Social and Governance Research (PASGR)** for the intake 2023.

The awarding of scholarships will be subject to the provision of funds.

DURATION AND COMMENCEMENT

The standard period of study and the start date are based on the agreement between the host university and the DAAD.

APPLICATION AND SELECTION PROCEDURE

6

Please be aware of the DAAD's application deadline as well as Partnership for African Social and Governance Research (PASGR)'s deadline.

The application process for DAAD scholarships contains the following steps.

Applicants must apply for the scholarship via the DAAD portal. Applicants are asked to log into the DAAD portal, register themselves and submit a DAAD application. **DAAD's Deadline: December 9, 2022.**

DAAD will conduct a formal check of the applications received via the DAAD portal according to DAAD criteria. Plagiarism scanning of the proposals submitted will also be done by the DAAD. Only complete applications and applicants who meet the DAAD application requirements are formally admissible according to

the DAAD selection criteria and will be availed to host institution for the next step.

Regardless of this process, applicants must at the same time apply for admission at the participating universities in collaboration with the Partnership for African Social and Governance Research (PASGR), using the contacts and the method that is prescribed by the institution. **The Institutions have set their own deadlines for the admission process.** Please inform yourself about the respective application processes at the host institution.

Please note: In some countries in Sub-Saharan Africa, a document from the Qualifications Authority must be submitted for admission to the universities (e.g., Kenya National Qualification Authority (KNQA), Tanzania Commission for Universities (TCU), Commission for University Education (CUE)). Please note that the application for these documents may take long and that it is the applicant's responsibility to get informed at an early stage to receive the documents from the respective authorities in time.

Partnership for African Social and Governance Research (PASGR), will screen, pre-select and short-list the applicants that have met both universities admission requirements and the formal criteria by DAAD. A detailed report consisting of the shortlisting procedure, the entire list of applicants, the ranked shortlist and the shortlisting panel members will also be availed to DAAD. The ranked shortlist will contain preferably triple (at least double) the number of scholarships that have been attributed to the institution.

In a final selection, the applications ranked by the institution in a pre-selection will be assessed by an independent selection committee (international university professors and experts from German and foreign universities and alumni). The independent selection committee evaluates the applications on the basis of the submitted documents and in consideration of the pre-selection ranking of the institution.

Areas evaluated include academic performance and quality, extracurricular activities, motivation, and relevance of the research topic (if applicable).

DAAD reserves the right of final selection.
