**Follow-Up**
30 November: Online Meeting

> Please note: This preliminary programme might be subject to modifications. The final programme will be published once all applications have been reviewed.

**Special Note concerning an alternative programme format**
Given the world-wide pandemic and the current status of uncertainty about its development, DAAD will decide in due course whether to replace the onsite events by an online version. This would imply modifications of the programme which would be announced to participants. In the case of a completely virtual event, DAAD could support the alumni by covering the costs for sufficient and secured data quantities (software support, no hardware support).
