In-Region Scholarship at the African Centre for Cities at the University of Cape Town (UCT), South Africa, 2027

PROGRAMME OBJECTIVES

1

The programme aims to foster strong, internationally oriented higher education systems in Sub-Saharan Africa with the capacity to contribute to sustainable development. For this purpose, scholarships for development-related Master's studies are awarded to individuals who plan to pursue a career in teaching and/or research at a higher education institution in Sub-Saharan Africa.

By training future academic and professional leaders, the programme contributes to the following **long-term impacts**:

- Qualified professionals' involvement in the solution of development-related problems in Sub-Saharan Africa
- Graduates strengthening education and research in Sub-Saharan Africa
- Structural strengthening and regional networking of partner institutions and partner universities

To achieve these long-term impacts, the following outcomes have been formulated as programme objectives:

Programme objective 1: Graduates have qualified to take over responsible positions in their or for their region of origin

Programme objective 2: The participation of women and underprivileged groups is reinforced

Programme objective 3: Organizational, financial and personal capacities of partner institutions are strengthened

As part of the „In-Country/In-Region Scholarship Programme“, the DAAD offers scholarships for Master studies. The programme is supported by the German Federal Ministry for Economic Cooperation and Development (BMZ) and designed primarily for university staff in the first line, whilst also catering to the public sector demand of academically trained personnel.

The target group for scholarships is graduates from Sub-Saharan Africa with a first academic degree, who want to pursue Master's courses

- in another country in Sub-Saharan Africa

(In-Region scholarships are designed for students who want to participate in a study programme in a country of their home region (here: Sub-Saharan Africa /outside their home country/in the country for which they do not have a residence permit).

It has been agreed that the DAAD cooperates with the University of Cape Town by offering **up to 7 In-Region scholarships for Master studies** at the University of Cape Town for the intake 2027.

The awarding of scholarships will be subject to the provision of funds.

DURATION AND COMMENCEMENT FOR A MASTER'S DEGREE

The duration

- Scholarships are awarded for the duration of the standard period of study for the chosen programme (up to a maximum of **24** months). Please state the entire period for which you wish to apply for a scholarship in your application. For example, if you are planning a 2-year degree programme, you must directly communicate two years as the desired scholarship duration in your application. After the first year of study, your academic achievements will be assessed in a further funding procedure. If this assessment shows that you will successfully complete your programme within a reasonable period of time, the scholarship will continue as planned.

The scholarship usually begins on 1st of February of the following year.

Please note that the maximum duration of the scholarship consists of the year you apply for, plus the time left to the end of the regular period of studies in that programme. For example, if you apply for a DAAD scholarship starting in your second year of studies of a three-year programme, the maximum duration of the scholarship will be two years.

The standard period of study and the start date are based on the Affiliate Agreement between the host university and the DAAD.

Please note: If you arrive later, the duration of your scholarship will be shortened accordingly.

APPLICATION AND SELECTION PROCEDURE FOR A MASTER'S DEGREE

As a first step, all applicants must submit a complete application for the programme via the DAAD Portal. This is a standard uploading area for all programme applications and some documents may not be mandatory for your application. Please refer to your programme call to check which documents are required.

Please be aware of the DAAD's application deadline as well as the University of Cape Town's deadline.

The application process for DAAD scholarships contains the following steps:

1. Register on the portal:
<https://funding.meindaad.de/sites/personalfunding#PBFApplication-Start?fundingProgramInstance=57869048>
2. Log in to the portal
3. Carefully read the instructions on how to apply in the portal
4. Submit your application via the portal by 29th April 2026

Remember to check that your application is complete and meets the DAAD requirements before submitting! Otherwise, your application cannot be considered.

The DAAD will conduct a formal review of the applications received via the DAAD portal only, according to the DAAD criteria.

► **In addition to the application process, applicants must apply for admission** at the University of Cape Town using the contact details and procedure prescribed by the institution. **The institution sets its own deadline for the admission process.** Please inform yourself in plenty of time about the application process at the host institution.

Please note: in some countries in Sub-Saharan Africa, a document from the **Qualifications Authority** must be submitted for admission to the universities (e.g., from SAQA in South Africa). The application for these documents can take a while and it is the applicant's responsibility to obtain the documents from the respective authorities in time.

In a final selection organised by the DAAD, applications that have met **both** the admission requirements at the host university (and the university's rank in the pre-selection) and the DAAD's formal criteria are evaluated by an independent selection committee (international university teachers and experts from German and foreign universities as well as alumni). The independent selection committee evaluates the applications based on the submitted documents, taking into consideration the pre-selection ranking of the institution. Areas evaluated include academic performance and quality, extracurricular activities, motivation, and relevance of the research topic (if applicable). The selection process usually takes place in September. The final decision will be announced for the region of Sub-Saharan Africa, approximately six months after the application process has been concluded.

Please note, that the information about the selection process and the deadlines for an announcement of the final decisions are a subject to change.

The DAAD reserves the right of final selection.

Please note that all short-listed applicants may be asked to participate in a multi-wave monitoring survey to gather data on different academic and career development aspects. Participation is voluntary.
