

Nürtingen-Geislingen University (NGU), located in southern Germany, specializes in education for responsibility with a strong emphasis on sustainable development. It comprises several schools offering diverse degree programs:

The School of Business & International Finance provides programs like Business Administration (B.Sc.), International Financial Management (B.Sc.), Controlling (M.A.), Organizational Design (M.A.), and International Finance (M.Sc.).

The School of Agriculture, Economics & Management offers degrees in Agriculture (B.Sc.), Equine Management (B.Sc.), Economics (B.Sc.), Process Management (M.Sc.), Sustainable Food and Agriculture Business (M.Sc.), and International Management (MBA).

The School of Business & Law features programs such as Automotive and Mobility Business (B.A., M.A.), Real Estate (B.Sc., M.Sc.), Health and Tourism Management (B.A.), Sustainable Management - Energy Management (B.A.), Business Law (LL.B.), Business Psychology (B.Sc.), Restructuring and Insolvency Management (LL.M.), Leadership (M.Sc.), and Sustainable Mobilities (M.Sc.).

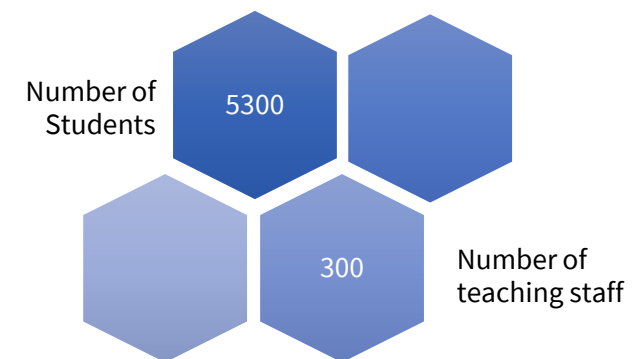

The School of Environment, Design & Therapy offers degrees in Landscape Architecture (B.Eng.), Landscape Planning & Nature Protection (B.Sc.), Urban Planning (B.Sc., M.Eng.), Environmental Protection (M.Eng.), Art Therapy (B.A., M.A.), Drama Therapy (B.A.), Sustainable Urban and Regional Development (M.Eng.), and International Master of Landscape Architecture (M.Eng.).

NGU is known for its applied academic approach, integrating professors with professional experience and industry lecturers. The curriculum emphasizes practical learning through internships, case studies, business simulations, and projects, preparing students for global careers.

The university's commitment to sustainability is evident in its collaborations with industry and local communities. Its international outlook enriches students' experiences, fostering global perspectives across various disciplines.

What does our university offer?

As part of a possible German-American or German-Canadian university cooperation, Nürtingen-Geislingen University offers expertise in the field of sustainable development in various disciplines. Our strengths lie in integrating sustainability skills into all degree programs, promoting interdisciplinary research and fostering partnerships that drive innovation and address global challenges. We are committed to expanding research collaborations and joint degree programs that promote knowledge exchange and contribute to the sustainable development of society. In addition, we offer the Zukunft Gründen (ZUG) project in our Future Box, which supports entrepreneurship and innovation, provides a dynamic environment for start-ups and promotes collaboration between science and business.

WE ARE INTERESTED IN THE FOLLOWING COOPERATIONS:

1. Exchange of students: We are eager to engage in student exchange programs that leverage NGU's diverse academic offerings and strong commitment to sustainability.
2. Exchange of teachers / staff: We offer programs like the KSK Visiting Professorship, funded by Kreissparkasse Esslingen-Nürtingen's Education Foundation, fostering teaching, research, and industry-academic collaboration for visiting professors from international universities.
3. study programs: We aim to expand joint (virtual) study programs, such as SuPrHuman, to foster collaborative learning and global academic engagement.
4. We are committed to fostering research cooperation initiatives that drive innovation and contribute to global knowledge exchange.
5. We actively facilitate practical cooperation and internships abroad, enriching our students' global experience and professional growth. Exchange students spending a semester at our university also receive support in finding internships.
