

European University Networks (EUN)

National Initiative

Partner Institutions

Vision of EUt+

The aim of EUt+ is to create an integrated European university with eight campuses over the next decade. We are guided by the idea that technology is more than a set of techniques or applied sciences. It represents the human capacity to express, think and understand the world through artefacts. Technology combines art and science as the engine of human progress.

A transdisciplinary approach shapes the EUt+ curricula to educate students who are aware of global

issues and can act as technologically responsible citizens.

EUt+ offers students joint European study opportunities in a multicultural environment with individualised residence times at all its campuses.

Founded on the principles of fairness, respect for human rights and European values, EUt+ is committed to providing all its students with the resources that will enable them to realise their potential at all EUt+ locations.

Think Human First • Technology • Transdisciplinarity • Sustainability • Inclusion and Diversity • Smart Specialization Strategy

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- Establish **networked cooperation structures** between the partner universities involved
- Provision of offers for the realisation of hybrid mobility and the corresponding **supporting IT structures and teaching-learning tools**
- Offering high-quality language courses as well as providing a virtual teaching offer for the partner universities, which includes all subject areas and enables easy transfer between the partners and **problem-free mutual recognition** of study achievements
- Development of adequate IT support for **Student Data Mobility**
- **Regular joint courses:** networking meetings, conferences, research symposia in virtual form, but also in the second half of the project as face-to-face events
- Establishment of jointly supported **European research institutes**
- **Exchange of people between the locations:** visiting researchers, students, doctoral candidates and staff from all administrative areas
