NMT is one of the pillars of the DIES programme with the aim to strengthen DIES alumni in their roles as multipliers in the field of higher education management, to initiate organisational changes at the participating universities and to promote the sustainability of DIES trainings.

THE PROGRAMME
supports multi-part training courses in the field of university management. It is organised independently by DIES alumni in their home country.

THE CONCEPT
Group of DIES alumni submit a joint training proposal and implement trainings in their own countries for higher education managers who have not participated in the DIES trainings yet.

TRAINING TOPICS
The NMT trainings should be in line with the DIES trainings courses with national adaption. Therefore they are focusing on:

- Faculty Management
- Project Management, Finance Management and Human Resource Management
- Quality Assurance including Curriculum Development
- Internationalisation
- Research Management with focus on „Proposal Writing“
