Vision of 3IN Alliance

The fundamental purpose of the 3IN Alliance and the ambitious long-term goal set to our European University Alliance is to co-create an innovative, novel modus operandi for a better-connected and interlinked world – a world where no one is left behind.

The seven HEIs have set themselves the goal of bringing Europe closer together through integration of their students, teachers and staff, the inclusion of various types of universities and all their specifics, with the involvement of society.

Regardless of significant differences and varying profiles of our institutions, we all share a strong commitment on human dignity, social justice and diversity, and base our long-term vision on sustainability and wellbeing across Europe.

The 3IN Alliance will transform the seven universities through joint innovations. It will create lifelong-learning paths for all members as well as feasible ways to scale results amongst each other. Inclusive contact-points will be developed in order to widen our networks.

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- **Structural preparation** corresponding to FHWS' strengths and expertise via **diffusion** of 3IN-activities into the university. Furthermore, **harmonization of processes** and **bundling of expertise** through close cooperation between administration and faculty
- Increase in **intercultural competencies** by expanding and supplementing FHWS concepts from Internationalization@home such as the **Intercultural Driver License** and the **Compass International**
- **Administrative simplification** in the field of mobility through **digitalization** with the help of the creation of an individual and flexible **learning journey**
- Expansion of **transnational** and **trans-disciplinary teaching** by establishing the so-called **Conceptathon** and by expanding the **english-language teaching offer** in the social sciences
- Development of an **information structure** for the implementation of so-called **smart mobilities** with the help of the introduction of a **map of expertise**
- **Increasing the visibility** of FHWS as a UAS with a European reach through the involvement of partners with the help of the so-called **Campus Community Dialogue**
