

# EUROPEAN UNIVERSITY NETWORKS (EUN)

## National Initiative

Partner  
Institutions

## Vision of EPICUR

EPICUR is a first generation European University Alliance, dedicated to shaping a sustainable, peaceful and healthy European future through the development of collaborative inter- and transdisciplinary teaching and research.

EPICUR partners are working together to create a virtual inter-university campus with the aim of expanding teaching, learning and research opportunities for staff and students alike.

At the heart of all EPICUR offerings is the belief that an interdisciplinary perspective coupled with intercultural sensitivity and awareness is key to

providing productive and societally responsible solutions to the challenges of the future. EPICUR Educational offerings are therefore embedded in Liberal Arts and Sciences tradition, and seek to provide students and staff with access to unprecedented opportunities to support and learn from one another across a range of innovative, interactive collaborative teaching formats.

EPICUR will bring together students, researchers and the wider community in EPIClusters of activity focused on developing interdisciplinary research programs to tackle societally relevant challenges of the future.

Be EPICURious!
