Vision of EU4Dual

Our vision is to become the global top-quality reference for Dual Education. We will form the largest integrated Dual-Education institution in the world – a multi-campus, multi-disciplinary institution, committed to close integration between academia, industry and regions.

We intend to use our collective expertise to help solve global challenges of industry and society – using Dual Education to make Europe greener, more equitable and more economically successful. Our mission is to use transnational Dual Education, a

model involving close collaboration between students, academics and business stakeholders, to help Europe address major societal challenges. In this context, EU4Dual also aims to triple the exchange of students, professors and other staff between the partner universities by 2026.
