

European University Networks (EUN)

National Initiative

Vision of CHARM-EU

CHARM-EU aims to create a new higher education model that will demonstrate how to enhance the quality, international competitiveness and attractiveness of the European higher education landscape. CHARM-EU partner institutions, together with regional and international partners from business and society, develop challenge-based study, research and exchange programmes that contribute to solving global challenges and to a more sustainable and inclusive future, with a particular focus on solving contemporary societal challenges – especially in the field of sustainability.

To achieve this, transdisciplinary teams involving researchers, faculty, students, and societal stakeholders collaborate in hybrid and agile teaching and learning settings.

The full mission statement of the alliance can be found at www.charm-eu.eu/index.php/mission-vision
