Vision of ENHANCE

ENHANCE unites ten European research-intensive universities with a focus on science and technology in the aim of creating a flourishing European Education Area. Technological innovation, teaching, and research sustainably enrich our society, environment and economy through open exchange.

Rooted in European values, our alliance of European universities of technology will turn global challenges into opportunities by empowering people with knowledge and competencies in science and technology to drive

responsible transformation for the benefit of society.

We strive for a community in which researchers and students develop sustainable solutions for the most pressing challenges of our time in close cooperation with societal stakeholders. Important guiding principles of our alliance are personal development and achieving a deep understanding of Europe's cultural diversity and community of values, as embodied in our pursuit of unrestricted mobility.

European Universities of Technology Alliance

Research-intensive Universities of Technology • European Education Pathways • Diversity and Inclusion • Human Wellbeing • Future Skills • Entrepreneurship • Transdisciplinarity • Science and Technology for the Benefit of Society

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- **ENHANCE Digital** better aligns the IT systems of TU Berlin and RWTH Aachen University in student administration with international partners and establishes processes for European data exchange.
- **ENHANCE Mobility** supports the universities in developing and implementing innovative and sustainable mobility concepts, flanked by efficient structures and advisory services, in order to increase the mobility of students, researchers, lecturers, and administrative staff.
- **ENHANCE Research** enables the establishment of new research collaborations with alliance partners with increased involvement of early career researchers as a complementary measure to the European ERASMUS+ programme.
- **ENHANCE Community** increases the visibility of alliance offers and measures and supports the universities in building an active community to fulfil the vision of a European university together with local civil society groups and initiatives.
