

European University Networks (EUN)

National Initiative

Vision of YUFE

YUFE will continue to develop into a student-centred, open, inclusive, and non-elitist European University in the upcoming years. Students are at the centre of our activities and play a key role in shaping our development. YUFE students create an individual “Student Journey” and benefit from teaching and training opportunities offered by all partners.

European career paths are open to all status groups, whether experienced scientists, early career researchers or management, administrative and technical staff – career paths cross borders.

YUFE stands for a close connection to the regions. All universities work together with companies, civil society organisations as well as local government and administration in order to jointly live the European idea and to locate the universities as actors in the region.

With the four focus topics European Identity, Sustainability, Citizens’ Well-Being and Digital Societies, we address current issues and reflect them in YUFE calls for proposals.

Network

YUFE

Young Universities for the Future of Europe

Student-centred • Open and inclusive
• Individualised Student Journey • European career tracks • Young research universities
• Quadruple Helix approach • Regionally and locally connected

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- **Digitisation** of academic courses and design of joint online platforms: Teaching and service offers are accessible online for the entire network, innovative formats are developed, administrative processes are simplified.
- **Multilingualism**: promotion of language offerings in all languages of the network, from German courses for students and staff of our partners to innovative online formats and language tests; development of a common language policy.
- **Diversity**: Promotion of diversity competence, online and in face-to-face courses for all status groups.
- **Workshops and job shadowing** for administration and management to exchange experiences in all areas.
- **Mobility**: Promoting the mobility of teaching staff, researchers and management, administrative and technical staff throughout the network; establishing a YUFE Mobility Award to realise short-term stays and initiate joint research projects.
