

European University Networks (EUN)

National Initiative

Partner Institutions

Vision of 4EU+

The 4EU+ Alliance aims to strengthen the collaboration between the eight participating European research-intensive partner universities in the fields of education, teaching, research, knowledge transfer and administration.

Building upon existing cooperations, new common infrastructures will be developed that aim to seamlessly connect students, academics and researchers.

This includes not only creating new study courses, but also developing innovative teaching and learning methods in addition to new formats of mobility such as the combination

of short-term mobilities with virtual mobility. The core elements of these activities are the four 'Flagship' programmes in the fields of Health, Europe, Information Technology and Sustainable Development. Based on intensive research collaboration in the four flagship areas, common research-based core curricula and four new interdisciplinary Master's degree programmes will be developed.

The vision of 4EU+ is the creation of a European university with coordinated course offerings, flexible study paths for students and various mobility options for both students and academic staff.

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- Coordination and expansion of digital offers for virtual and blended mobility and the development of a **database of existing online modules** and courses.
- **Support for academic staff** with didactic, methodological and technical questions concerning the development of new online courses.
- Establishment and further development of framework conditions for **innovative mobility formats** (short-term, blended/virtual mobility) and enabling of barrier-free mobility of students and academic staff.
- Implementation of new formats of credit mobility by facilitating **short-term programmes** and blended education.
- Increasing the visibility of the 4EU+ European University Alliance inside and outside the university through targeted **communication and public relations**.
