

# European University Networks (EUN)

## National Initiative

### Partner Institutions

## Vision of Arqus

The main objectives of Arqus are intensive networking and cooperation at all levels of the participating universities as well as the exchange of experience in the areas of research and promotion of young researchers, studies and teaching as well as transfer and social commitment. With the development of joint offers for the target groups students, academics, employees of the universities as well as the broader society Arqus wants to contribute to the excellence and attractiveness of European higher education.

Arqus members develop offers and strategies in 15 work packages. Leipzig University has a leading role in the areas of “European Heritage”, “Linking Local Ecosystems”, “Inclusion and Diversity” and “Plurilingualism and Interculturalism”.

The alliance’s name is derived from the Latin word “arcus/arquus”, meaning arch. The name stands for the bridges that the alliance is building for a common future with the aim of responding to global social challenges and strengthening European identities.

German Higher Education Institution
