

European University Networks (EUN)

National Initiative

Vision of EDUC

The aim of EDUC is to create an integrated European academic community that lives from its diversity. It is the latter that guarantees an agile design process of our alliance which is committed to the following vision:

1. Expanding the Bologna process by creating integrative conditions to increase and promote mobility.
2. Dismantling formal barriers and establishing conditions conducive to a flexible internationalised student journey.
3. Integration of all stakeholders in the co-creation of the alliance.
4. Strengthening European values and a joint European identity by educating competent and creative citizens.

5. Joint acting, researching and educating as a global community of responsibility when addressing the structural and social challenges of the 21st century.

6. Striving for excellence in all areas of the knowledge square.

EDUC is convinced that digitalisation is the key to meeting these challenges. It is indispensable to connect people and services, to improve teaching and learning, to establish innovative mobility scenarios, to ensure automatic recognition of credits and to create a new European identity.

Wide-range (digital) teaching and learning scenarios • Innovative mobility formats • Interlinking research activities • Transfer and societal outreach • Multilingualism • Sustainability • Practice-oriented key competences • Inclusion • European identity

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- **Increase of student and teacher mobility** through additional consulting / support services and standardisation of EDUC-internal administration processes.
- Advancement and implementation of **innovative and problem-based short-term teaching offers** for EDUC students with the involvement of lecturers from partner universities and regional associated partners.
- **Fellowships for students** to participate in EDUC summer schools or teaching collaborations.
- Support for lecturers with the **creation of innovative virtual teaching and learning scenarios** together with colleagues from EDUC partner universities by providing specific support packages (staff support, consulting).
- **Promotion of academic exchange** between scholars to initiate new cooperation formats in research and teaching.
