Vision of EU-CONEXUS

EU-CONEXUS – as a signpost for the future of the European Higher Education Area – is an association of nine European universities that have set themselves the goal of enabling innovative and interdisciplinary research, teaching and European studies across national borders. The focus is on the topic of sustainable coastal regions and this is what distinguishes this university association from like-minded alliances. All participating universities have focal points in maritime and sustainability-oriented research. A stronger

interdisciplinary cooperation and the inclusion of societal, social and economic actors from the immediate environments of the respective universities is another important component of the philosophy of EU-CONEXUS.

ACCOMPANYING NATIONAL PROGRAMME

Priorities and Project Activities

- “Smart Mobility” – The goal of the accompanying programme is to publicize the EU-CONEXUS network at the University of Rostock and to find approaches to meaningful networking – at the teaching level as well as at the administrative / procedural level. The challenge lies in the complexity of the overall programme design as well as in the complexity of the individual programme points of the EU network.
- Mobility Coordinator (MoKo) – improve scientific networking of the University of Rostock with the EU-CONEXUS network; expansion of the summer school network; mobility of scientific and administrative staff; coordination of events.
- Digital Manager (DiMa) – concept and thorough digitalization on teaching & administrative level; expansion and support of hybrid teaching & BIPs; IT process optimization in connection with EWP.
- DiMa and MoKo work towards each other; DiMa analyzes ACTUAL state and initiates resulting options for action, which are implemented jointly by MoKo & DiMa.
