## Vision of Transform4Europe

Transform4Europe – T4EU aims at becoming one integrated European University based on shared European values, a diverse and inclusive alliance deeply rooted in the respective regional ecosystems, educating and training knowledge-entrepreneurs as drivers of transformation for the benefit of sustainable and resilient European societies.

We share the values of peace, freedom, justice, democracy, equality, and human rights, and aim at contributing to social cohesion and active citizenship. We acknowledge the diver-

sity of our cultural heritages including its Christian traditions as well as other religious, philosophical and humanist legacies represented in the idea of Europe and believe in safeguarding this diversity as the basis for a European identity and way of life.

In our scientific work, we rely on core values like the power of reason, knowledge-based progress, and academic freedom.
