

# European University Networks (EUN)

## National Initiative

Partner Institutions

## Vision of EUT+

The aim of the EUT+ alliance is to contribute to the further integration of Europe as one of the first technology-oriented European universities. The partners will strengthen and intensify cooperation at all levels in the areas of teaching, research and transfer. The h\_da and eight partner universities are working together on the vision of a new type of university – the European University.

EUT+ is growing together step by step: initially through joint teaching modules, better recognition of academic achievements and research cooperation.

Later, joint European degree programmes and much more will be added. Students will benefit from simplified mobility and the acquisition of intercultural skills, among other things. Researchers will have more opportunities for joint projects and employees will have more chances for international encounters. At the end, the universities will merge into one European University.

ACCOMPANYING NATIONAL PROGRAMME

## Priorities and Project Activities

- Prioritization and integration through collaboration and stakeholder involvement, overcoming barriers, and fostering a sense of **shared belonging**.
- Development of a common **European degree** on the basis of harmonized and transdisciplinary curricula (BA & MA) and implementation of **long-term mobility** plans.
- Establishment of a clear research and innovation strategy, **strengthening the EUT+ European Research Institutes**, and promoting innovation through projects like Inno-EUT+.
- Promotion of a culture of **equality, diversity, and inclusion** through the implementation of gender and intersectional equality plans.
- Advocacy for Open Science policies through agreements such as **OpenAIRE** and collaboration with multiple partners for joint projects.
- Development of supportive **IT structures** and improved interoperability of **IT systems** across member universities.
